**IF ON SKIN (OR HAIR):** Remove/soak off immediately all contaminated clothing. Rinse skin with water/shower.  
**IF INHALED:** Remove victim to fresh air and keep at rest in a position comfortable for breathing.  
**IF INHALED:** If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.  
**IF IN EYES:** Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.  
**If exposed or concerned:** Get medical attention.  
**If skin irritation or a rash occurs:** Get medical advice/attention. Call a POISON CENTER or doctor/physician.

**AR-CHEM AG CONQUER**, from Share Corporation, is the cleaner that can thoroughly wash your agricultural equipment inside and out. A heavy duty acid based cleaner, **AR-CHEM AG CONQUER** has the strength to remove thick chemical deposits from sprayer tanks. When using **AR-CHEM AG CONQUER**, residue from pesticides, herbicides, fertilizers and adjuvants are washed away from surfaces with ease. **AR-CHEM AG CONQUER** can also be used on the exterior of equipment too. It's perfect for removing soil and debris from aluminum parts and surfaces.

**DIRECTIONS: ALWAYS WEAR RUBBER GLOVES AND SUITABLE ACID RESISTANT PROTECTIVE GARMENTS WHEN HANDLING!**

Dilute 1 part **AR-CHEM AG CONQUER** with up to 15 parts of water. Swab or spray and surface to be cleaned and rinse thoroughly when cleaning is complete. Test **AR-CHEM AG CONQUER** on an inconspicuous area before using on painted or polished surfaces.

**STORAGE:** Store in a well-ventilated place. Keep container tightly closed.

**DISPOSAL:** Dispose of contents/container to comply with local/regional/national/international regulations.

**WARNING:** This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

**INGREDIENTS/CAS#:**  
Water (7732-18-5); Sulfuric Acid (7664-93-9); Hydrofluoric Acid (7664-39-3); Alkyl(diphosphonoxide Disulfonate) (7757-82-6); Cocoamidopropyl Betaine (61789-40-0)

**NFPA® RATINGS:**  
Health: 4; Flammability: 0; Reactivity: 0

For industrial and commercial use only.  
For additional information, see Safety Data Sheet.

Extremely corrosive and destructive to tissue. Specialized medical treatment is required for all exposures. May be fatal if inhaled, absorbed through skin, or swallowed. Material is absorbed through the skin. Get medical attention immediately. While waiting for medical attention, it has been shown that flushing the affected area with water for 1-5 minute and then massaging HF Antidote Gel into the wound until there is a cessation of pain is a most effective first aid treatment. HF Antidote Gel contains Calcium Gluconate which combines with HF for insoluble Calcium Fluoride, thus preventing the extraction of calcium from the body tissue and bones. Another alternative first aid treatment, after thorough washing of the burned area, is to immerse the burned area in a solution of 0.2% iced aqueous Hyamine 1622 or 0.13% iced aqueous Zephiran Chloride. If immersion is impractical, towels could be soaked with one of the above solutions and used as compresses for the burn area. Hyamine 1622 is a trade name for Tetracaine Benzethonium Chloride. Zephiran is a trade name for Benzalkonium Chloride.

Recycle Recycle.
