Consult label for complete list.

DIRECTIONS: LAWNS AND GOLF FAIRWAYS: Apply 2 to 3 quarts per acre with sufficient water to obtain uniform coverage. DO NOT apply to bent grass or to freshly seeded turf until grass has become well established. Most clover are usually injured or killed. Do not apply more than 3 quarts per acre per application (1.5 lbs ae/acre). Do not apply more than 6 quarts per acre per season (3 lbs ae/acre). Do not make more than 2 applications per season.

FOR TREATING SMALLER AREAS: Use one tablespoon of this product in 1-1/2 gallons of water.

GENERAL WEED CONTROL: On vacant lots, roadsides and along fence rows, use 4 quarts in 100 gallons of water per acre. Do not apply more than 4 quarts per acre per application (2 lbs ae/acre). Do not make more than 2 applications per year, with a minimum of 30 days between applications.

NOTE: Consult product label for best times of application and directions for control of broadleaf weeds.

CONSULT PRODUCT LABEL FOR DETAILED USE INSTRUCTIONS.
