

Dynasty Clear Out

Bacterial Drain Maintainer

Form: Thickened Liquid

Color: Green

Odor: Citrus

pH: 6-8

Solubility (in water): Soluble

Flash Point (ASTM D-7821): >200 °F

Specific Gravity: 1.03 g/cm³

Density: 8.47 lbs/gal

Storage Stability (at 70°F): 1 year

This Product Contains: **CAS#**

Water	7732-18-5
Propylene Glycol	57-55-6
C9-11 Alcohols Ethoxylated	68439-46-3
Acrylic Polymers	NA
Viable Bacterial Culture	Withheld

Great For Use In...

- Restaurants
- Fast Food Establishments
- School Cafeterias
- Hotels
- Country Clubs
- Kitchens
- Food Processing Establishments

FOR DRAIN MAINTENANCE: Regular use of DYNASTY CLEAR OUT establishes an active bacterial population that works continuously to keep organic matter from building up. Add 1 ounce of DYNASTY CLEAR OUT to all drains once per week. Allow the product to work overnight before using drains to give bacteria time to work. For drains that receive large amounts of organic matter (kitchens and garbage disposals), increase the dosage to 2 or 3 ounces per week.

TO REMOVE DRAIN BLOCKAGES: Pour 2 ounces of DYNASTY CLEAR OUT into clogged drains. Its thickened formula will carry this unique product directly to the site of the stoppage. Allow drain to sit undisturbed for at least 6 hours – preferably overnight. Flush drain with hot water for several minutes to loosen clog and restore normal drain flow. If flow is not completely restored, repeat treatment. After flow is restored, start a regular drain maintenance program as described above.
