DIRECTIONS: For best results, drains and grease traps should be treated daily at a time of low flow, to allow time for the bacteria and enzymes to work (usually at the end of the day or late at night). Use of a timed metering pump such as the ENZO-SNAKE PUMP ASSEMBLY will ensure maximum performance. Make daily additions of DYNASTY ENZO-SNAKE - CHERRY based on the size of the grease trap:

Grease Trap Capacity (gallons)	Daily Maintenance Dosage	Amount Required to Treat Trap (per 30 day interval)	Interval Between 5 Gallon Pail Change (days)
1 - 250 Gallons	21 Ounces	5 Gallons	30 Days
251 - 500 Gallons	42 Ounces	10 Gallons	15 Days
501 - 750 Gallons	64 Ounces	15 Gallons	10 Days
751 - 1000 Gallons	86 Ounces	20 Gallons	7 Days
