Dispose of contents/container to comply with local/regional/national/international regulations.

For industrial and commercial use only.

For additional information, see Safety Data Sheet.

Please Recycle.

Winter can be very tough on your carefully maintained floors. Regular use of ice melting chemicals create a dull film at building entranceways that track onto other floors and carpeting. Daily cleaning with detergent-based cleaners produces white hazy material that is extremely difficult to remove. Remove this unattractive material from your floors with **WINTERINSE**. Don't let winter take its toll on your beautiful floors, preserve their attractive appearance with **WINTERINSE**.

DIRECTIONS:

FOR DAILY DAMP MOPPING: Prepare a solution containing one ounce of **WINTERINSE** for each gallon of rinse water. Apply liberally to floor with a mop, allowing the solution to set for several minutes. Rinse with clean, clear water, being certain to wring out mop frequently.

TO REMOVE HEAVY FILM: Dilute two ounces of **WINTERINSE** in one gallon of rinse water.

NFPA® RATINGS:

Health: 2; Flammability: 1; Reactivity: 1

INGREDIENTS/CAS #:

Water/7732-18-5; Sulfamic Acid/5329-14-6;
Nonylphenol Polyethoxylate/9016-45-9;
Perfume/Mixture
