AR-CHEM AG COOL BLUE FOAM MARKER DYE is a highly concentrated, liquid water colorant developed to provide better visibility of agricultural marking foam in darkness or on stubble covered fields. This highly visible dye mixes readily with water and will not stain equipment or leave a residue that will harm plants or soil. **AR-CHEM AG COOL BLUE FOAM MARKER DYE** is compatible with most commercial foaming agents.

DIRECTIONS:

SHAKE WELL BEFORE USING. Use 16 ounces (one pint) of **AR-CHEM AG COOL BLUE FOAM MARKER DYE** to each 40 to 50 gallons of mixed foam solution. Add foam marker concentrate to clean tank and fill with water, or follow directions on the foam concentrate label. Add **AR-CHEM AG COOL BLUE FOAM MARKER DYE** last.

DISPOSAL:

Offer empty container for recycling. If recycling is not available, discard container in trash.

NFPA® RATINGS:

Health: 0; Flammability: 0; Reactivity: 0
