

BUBBLE BUSTER

Concentrated Defoamer

Form: Liquid

Color: White

Odor: Mild

pH: 5.9

Solubility (in water): Soluble
(in mineral spirits): Insoluble

Viscosity (CPS at 70°F): >40

Flash Point (ASTM D-7821): None

Specific Gravity: 1.00 ± 0.05 g/cm³

Density: 8.36 ± 0.05 lbs/gal

Storage Stability (at 70°F): 1 year

Ingredients

C.A.S.

Water.....	7732-18-5
Poly Alkyl Polysiloxane	63148-62-9
Triethanolamine	102-71-6
Hydantoin.....	6440-58-0
Carboxypolymethylene	9003-01-4

Great for use in...

- **Fertilizer Solutions**
- **Nitrogen Solutions**
- **Herbicide Solutions**
- **Insecticide Solutions**

- **Always refer to the pesticide label for proper use rates or conditions**

DIRECTIONS: SHAKE WELL BEFORE USING! BUBBLE BUSTER should be added to the solution in the mix tank before agitation or mixing and before the pesticides, fertilizers or surfactants are mixed into the solution.

An initial addition of ½ ounce per 100 gallons of spray solution mixture will generally suppress foam. BUBBLE BUSTER may be diluted and used through a hand trigger sprayer and sprayed over any existing foam. A stronger solution may be needed when trying to prevent foam build-up in urea solutions.
