DANGER: Harmful if swallowed. Causes serious eye damage. Suspected of causing cancer. May cause damage to organs through prolonged or repeated exposure.

PRECAUTIONS: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist, spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear eye protection, protective clothing, protective gloves.

IF SWALLOWED: Rinse mouth. Call a doctor, a POISON CENTER if you feel unwell.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If exposed or concerned: Get medical advice/attention. Immediately call a doctor, a POISON CENTER. Get medical advice/attention if you feel unwell.

Store locked up.

Dispose of contents/container to comply with local/regional/national/international regulations.

WARNING:

This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

NFPA® Ratings

Health: 2; Flammability: 0; Reactivity: 0

Contains/CAS Number:

Water (7732-18-5); Nonylphenol Polyethoxylate (9016-45-9); Triethanolamine (102-71-6); Diethanolamine (111-42-2).

SMOTHER is a synthetic fire fighting cooling and penetrating agent designed to control Class A & B fires - those that tend to smolder. **SMOTHER** utilizes the latest in chemical technology to significantly lower the surface tension of water, increasing the effectiveness of water to cool, penetrate and saturate stubborn blazes. Specially incorporated ingredients cool fire generated heat to prevent the ignition of surrounding combustible materials. This unique combination of ingredients creates a product that extinguishes fires faster resulting in lower water usage, less property damage and savings in clean-up costs.

SMOTHER is non-toxic, biodegradable and non-corrosive. A corrosion inhibitor has been added to prevent rust on steel surfaces and to protect water tanks and fittings. **SMOTHER** is compatible with all fire fighting foams and tank protective agents. Protect lives and property, minimize water usage and reduce clean-up time and costs by incorporating **SMOTHER** in all your Class A & B fire operations.

DIRECTIONS:

PREMIX: The recommended usage ratio is one gallon of **SMOTHER** to 1000 gallons of water. Pour into tanker, booster tank, or portable pond. **SMOTHER** mixes readily and will not separate even in long term storage.

EDUCTOR SYSTEMS: **SMOTHER** can be used through conventional in line eductor systems. Set the eductor at 1% for best performance.

CLEAN-UP & SALVAGE PROCEDURES: Standard clean-up and salvage procedures used with water can be employed. **SMOTHER** does not stain or leave behind a visible residue.

For industrial and commercial use only.
