

DANGER: May cause an allergic skin reaction. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause genetic defects. May cause cancer.

PREVENTION: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing dust, fume, gas, mist, spray, vapors. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves, protective clothing, eye protection, face protection. In case of inadequate ventilation wear respiratory protection.

RESPONSE:

IF ON SKIN: Wash with plenty of water.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

If exposed or concerned: Get medical advice/attention. Specific treatment (see First aid measures on this label).

If skin irritation or rash occurs: Get medical advice/attention

If experiencing respiratory symptoms: Call a doctor, a POISON CENTER. Take off contaminated clothing and wash it before reuse.

Store locked up.

DISPOSAL: Dispose of contents/container to comply with local/regional/national/international regulations.

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

INGREDIENTS/CAS#:

Limestone (1317-65-3); Titanium Oxide (13463-67-7); Solvent naphtha (petroleum), heavy arom (64742-94-5); 4,4'-methylenediphenyl diisocyanate, diphenylmethane-4,4'-diisocyanate (101-68-8); Solvesso 100 (64742-95-6); 1,2,4-trimethylbenzene (95-63-6); Aluminum Oxide (1344-28-1); Crystalline Silica (14808-60-7); Polymethylene polyphenyl isocyanate (9016-87-9); Mesitylene, 1,3,5-trimethylbenzene (108-67-8).

NFPA® RATINGS:

Health: 2; Flammability: 2; Reactivity: 0

TOUGH-FLEX

Professional Series Urethane Sealant CONCRETE GRAY

- FORMS WATERTIGHT BOND.
- PAINTABLE WHEN CURED WITH LATEX-TYPE PAINTS.
- REMAINS FLEXIBLE OVER A WIDE TEMPERATURE RANGE.

DANGER

May cause an allergic skin reaction. May cause allergy or asthma symptoms or breathing difficulties if inhaled.
May cause genetic defects. May cause cancer.

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: 10.3 fl. oz.

TOUGH-FLEX is a one-part professional grade urethane sealant that cures when exposed to the moisture present in the atmosphere. This tough, flexible, waterproof sealant is ideal for application in the field on both new and remedial projects. **TOUGH-FLEX** forms a durable bond with most building materials in any combination of stone, ceramics, marble, wood, steel, aluminum and most.

DIRECTIONS:

1. Cut tip at an angle to size desired.
2. Puncture foil seal inside tip.
3. Apply to clean, dry surface.
4. Surface temperature should be a minimum of 25°F.

For crack repair: Cracks should be firm, dry, clean and free of debris, grease, oil or other coatings. Install back-up material or joint filler, spacer shims and tapes as necessary. Apply **TOUGH-FLEX**, using a caulking gun, in a continuous bead to fill and seal the crack or joint. Tool the seal to spread the sealant against the back-up material and onto the joint surfaces.

For roof maintenance and repair: Use **TOUGH-FLEX** to form flashings and seal around skylights, vents, louvers, parapet walls and gravel stops. **TOUGH-FLEX** also works well to seal around high-vibration areas and equipment such as roof-top fans and air conditioning units.

For expansion and control joints: Joints should be clean, dry and free of debris and coatings. A thin bead of **TOUGH-FLEX** can accommodate more joint movement than a thick bead would allow. Sealant should be no thicker than 1/2" and no thinner than 1/4". Backing material should be applied to bring sealant depth to 1/4".

TOUGH-FLEX can be tooled or worked for 60 minutes, and is tack free in just 4 hours. Sealant fully cures in 2 to 4 days depending on relative humidity.
