

SHARE TECH PRO SERIES HAND TOOLS 3-STAGE UNIVERSAL IMPACT JOINT SET

Finally a Universal Impact Joint that simply solves the problem to limited access.

- An impact grade universal joint where power and access are linked in unison.
- Heavy duty chrome molybdenum steel construction with black oxide finish.
- 25% higher torque standards than current ANSI standards.

Stage 1

Stage 3

Stage 2

- Increased joint flexibility provide increased access for those common "HARD TO REACH APPLICATIONS".
- The Patented 3-Stage design allow for more angles of "FREEDOM" compared to the common single stage universal joint while still exceeding the ANSI standards which are applied to the common single stage universal joint.

- Can be used with regular hand ratchets, battery and air impact wrenches and ratchets.
