# 3PC. RATCHET REVERSIBLE LOCKING FLEX HEAD EXTENDABLE RATCHET SET

Finally a flexible locking head ratchet with an 180 degree radius to get into those tight confined spaces.

- Heavy duty mirror finish chrome vanadium construction provides maximum strength, durability and corrosion resistance.
- 72 tooth gear head design provides a 5 degree sweep, enhancing ratcheting engagement in tight confined spaces.
- Ergonomic TPR handle provides maximum comfort and anti-slip grip while reducing operator fatigue.
- Spring loaded slide extension allows the handle to extend effortlessly, increasing torque and access to tight, confined spaces.
- Flexible locking head design enhances versatility and productivity in awkward and tight, confined spaces with a 180 degree radius.
- Delivers up to 60% more torque than the ANSI standard for hand ratchets for superior performance.
- The quick release push button enables fast, smooth socket/extension engagement and removal for maximum efficiency.
- Lifetime guarantee against factory defects.
