SECTION 1: Product and company identification

Product name: Bed Bug, Lice and Dust Mite Spray

Use of the substance/mixture: Insecticide Aerosol

Product code: 840201

Company: Share Corporation
P.O. Box 245013
Milwaukee, WI 53224 - USA
T (414) 355-4000

Emergency number: Chemtrec: (800) 424-9300

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification (GHS-US)
- Flam. Aerosol 1 H222
- Skin Sens. 1 H317

Full text of H-phrases: see section 16

2.2. Label elements

GHS-US labeling

Hazard pictograms (GHS-US):
- GHS02
- GHS07

Signal word (GHS-US): Danger

Hazard statements (GHS-US): Extremely flammable aerosol
- May cause an allergic skin reaction

Precautionary statements (GHS-US):
- Keep away from heat, sparks, open flames, hot surfaces. - No smoking
- Do not spray on an open flame or other ignition source
- Pressurized container: Do not pierce or burn, even after use
- Avoid breathing gas
- Contaminated work clothing must not be allowed out of the workplace
- Wear protective gloves
- If on skin: Wash with plenty of water
- Specific treatment (see First aid measures on this label)
- If skin irritation or rash occurs: Get medical advice/attention
- Take off contaminated clothing and wash it before reuse
- Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F
- Dispose of contents/container to comply with local/regional/national/international regulations

2.3. Other hazards

No additional information available

2.4. Unknown acute toxicity (GHS US)

Not applicable

SECTION 3: Composition/information on ingredients

3.1. Substance

Not applicable

Full text of H-phrases: see section 16

3.2. Mixture

Date of issue: 9/30/2015
Revision date: 05/15/2015
Version: 1.0
SECTION 4: First aid measures

4.1. Description of first aid measures
First-aid measures general: Take off immediately all contaminated clothing. If you feel unwell, seek medical advice. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this sheet where possible. Keep victim warm and rested. Wash contaminated clothing before reuse.

First-aid measures after inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a poison center or a doctor if you feel unwell.

First-aid measures after skin contact: If skin irritation occurs: Get medical advice/attention. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

First-aid measures after eye contact: Rinse immediately with plenty of water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

First-aid measures after ingestion: Call a physician immediately. Do not induce vomiting without medical advice. If vomiting occurs have person lean forward. Ingestion of large quantities: immediately to hospital. Do not give milk/oil to drink. Made worse through the drinking of alcohol beverages.

4.2. Most important symptoms and effects, both acute and delayed
Symptoms/injuries: May be fatal if swallowed and enters airways. May cause an allergic skin reaction. Dermatitis.
Symptoms/injuries after inhalation: Prolonged exposure: danger of damage to health through inhalation.
Symptoms/injuries after skin contact: Dermatitis. Skin rash/ inflammation. May cause an allergic skin reaction.
Symptoms/injuries after eye contact: Direct contact with the eyes is likely irritating.
Symptoms/injuries after ingestion: Swallowing the liquid may cause aspiration into the lungs with the risk of chemical pneumonitis. Risk of lung edema.

4.3. Indication of any immediate medical attention and special treatment needed
Treat symptomatically. Keep watching the victim. Symptoms may be delayed.

SECTION 5: Firefighting measures

5.1. Extinguishing media
Unsuitable extinguishing media: Do not use a water jet since it may cause the fire to spread.

5.2. Special hazards arising from the substance or mixture
Fire hazard: Extremely flammable aerosol.
Explosion hazard: Contains gas under pressure; may explode if heated.
Reactivity: The product is non-reactive under normal conditions of use, storage and transport.

5.3. Advice for firefighters
Firefighting instructions: In case of fire and/or explosion do not breathe fumes. Move containers away from the fire area if this can be done without risk. NEVER direct water jet on liquid. Use water spray or fog for cooling exposed containers. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out. Some of these materials, if spilled, may evaporate leaving a flammable residue.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
General measures: Evacuate unnecessary personnel. Stay upwind/keep distance from source. Gas is denser than air. May accumulate in low areas e.g. close to the ground. Vapors are heavier than air and may travel considerable distance to an ignition source and flash back to source of vapors.

6.1.1. For non-emergency personnel
Protective equipment: Do not enter without an appropriate protective equipment. Do not breathe gas/vapor. DO NOT touch spilled material.
Emergency procedures: Ventilate the area thoroughly, especially low lying areas (basements, work pits etc.). Advice local authorities if considered necessary.

6.1.2. For emergency responders
Protective equipment: For further information refer to section 8 Exposure controls/personal protection* *.
Emergency procedures: Ventilate area. Stop release. Stop leak if safe to do so.

6.2. Environmental precautions
Avoid discharge to the environment. Do not contaminate water with the product or its container. Do not allow to enter drains or water courses. Advice local authorities if considered necessary.
6.3. Methods and material for containment and cleaning up

For containment: Eliminate every possible source of ignition. NO open flames, NO sparks, and NO smoking. Keep combustibles (wood, paper, oil, etc.) away from spilled material. Form with air vapors (heavier than air) who stay on the floor. Gas is denser than air. May accumulate in low areas e.g. close to the ground. This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways. Stop leak if safe to do so. Stop the leak. Turn leaking containers leak-side up to prevent the escape of liquid. Move the cylinder to a safe and open area if the leak is irreparable. Use water spray to disperse the vapors. Isolate area until gas has dispersed.

Methods for cleaning up: Following product recovery, flush area with water. Clean thoroughly. Dispose as hazardous waste. Reference to other sections (13).

6.4. Reference to other sections

No additional information available

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling: Vapors may form explosive mixture with air. Exclude sources of heat, sparks and open flame. Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any incandescent material. Do not smoke while handling product. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Use only explosion-free electrical equipment with earth. Do not re-use empty containers. Obtain special instructions before use. Reduce/avoid exposure and/or contact. Do not breathe gas/vapor/aerosol. Avoid contact with skin, eyes and clothing. Avoid prolonged and repeated contact with skin. Use only outdoors or in a well-ventilated area. Wear recommended personal protective equipment.

Hygiene measures: Wash thoroughly after handling. Use good personal hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures: Do not puncture, incinerate or crush. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Proper grounding procedures to avoid static electricity should be followed.

Storage conditions: Store locked up. Refrigerate. Keep away from food and drink.

Incompatible products: Refer to Section 10 on Incompatible Materials.

Incompatible materials: Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C.

Storage area: Store in a cool area. Aerosol 1.

Special rules on packaging: meet the legal requirements.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.2. Exposure controls

Appropriate engineering controls: Provide sufficient air exchange and/or exhaust. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Ensure adequate ventilation, especially in confined areas.

Personal protective equipment: Use appropriate personal protective equipment when risk assessment indicates this is necessary. Gloves. Face shield. Protective clothing.
Hand protection : In case of repeated or prolonged contact wear gloves.
Eye protection : Avoid contact with eyes. Face shield.
Skin and body protection : Avoid contact with skin. Wear chemical protective equipment that is specifically recommended by the manufacturer. Use of an impervious apron is recommended. It may provide little or no thermal protection.
Respiratory protection : If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an air-supplied respirator.
Thermal hazard protection : Use appropriate personal protective equipment when risk assessment indicates this is necessary.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties
Physical state : Liquid
Odor : None known.
Odor threshold : No data available
pH : No data available
Melting point : No data available
Freezing point : No data available
Boiling point : No data available
Flash point : -156 °F Propellant estimated
Relative evaporation rate (butyl acetate=1) : No data available
Flammability (solid, gas) : No data available
Explosion limits : No data available
Explosive properties : No data available
Oxidizing properties : No data available
Vapor pressure : No data available
Relative density : No data available
Relative vapor density at 20 °C : No data available
Specific gravity / density : 0.863 g/ml estimated
Solubility : No data available
Log Pow : No data available
Log Kow : No data available
Auto-ignition temperature : No data available
Decomposition temperature : No data available
Viscosity : No data available
Viscosity, kinematic : No data available
Viscosity, dynamic : No data available

SECTION 10: Stability and reactivity

10.1. Reactivity
The product is non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability
Risk of ignition.

10.3. Possibility of hazardous reactions
Hazardous polymerization does not occur.

10.4. Conditions to avoid
Heat. Open flame. Sparks. Incompatible materials. Aerosol containers are unstable at temperatures above 49°C. Avoid temperatures exceeding the flash point.

10.5. Incompatible materials

10.6. Hazardous decomposition products
Under normal conditions of storage and use, hazardous decomposition products should not be produced.
### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

**Acute toxicity**
- Dermal: Not classified.

**Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics (64742-47-8)**
- LD50 dermal rabbit: > 5000 mg/kg body weight (Rabbit; Literature)

**Permethrin (ISO), m-phenoxybenzyl 3-(2,2-dichlorovinyl)-2,2-dimethylcyclopropanecarboxylate (52645-53-1)**
- ATE CLP (oral): 500.000 mg/kg body weight
- ATE CLP (dust, mist): 1.500 mg/l/4h

**White mineral oil (petroleum) (8042-47-5)**
- LD50 oral rat: > 5000 mg/kg body weight (Rat; Equivalent or similar to OECD 401; Experimental value)
- LD50 dermal rabbit: > 2000 mg/kg body weight (Rabbit; Experimental value; Equivalent or similar to OECD 402)
- LC50 inhalation rat (mg/l): > 5 mg/l/4h (Rat; Experimental value)

**Skin corrosion/irritation**
- Not classified

**Serious eye damage/irritation**
- Not classified

**Respiratory or skin sensitization**
- May cause an allergic skin reaction.

**Germ cell mutagenicity**
- Not classified

**Carcinogenicity**
- Permethrin (ISO), m-phenoxybenzyl 3-(2,2-dichlorovinyl)-2,2-dimethylcyclopropanecarboxylate (52645-53-1): IARC group 3 - Not Classifiable
- White mineral oil (petroleum) (8042-47-5): IARC group 3 - Not Classifiable

**Reproductive toxicity**
- Not classified

**Specific target organ toxicity (single exposure)**
- Not classified

**Specific target organ toxicity (repeated exposure)**
- Not classified

**Aspiration hazard**
- Not classified

**Symptoms/injuries after inhalation**
- Prolonged exposure: danger of damage to health through inhalation.

**Symptoms/injuries after skin contact**
- Dermatitis. Skin rash/inflammation. May cause an allergic skin reaction.

**Symptoms/injuries after eye contact**
- Direct contact with the eyes is likely irritating.

**Symptoms/injuries after ingestion**
- Swallowing the liquid may cause aspiration into the lungs with the risk of chemical pneumonitis. Risk of lung edema.

**Likely routes of exposure**
- Skin and eyes contact.; Inhalation; Ingestion.

### SECTION 12: Ecological information

#### 12.1. Toxicity

**Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics (64742-47-8)**
- LC50 fish 1: > 100 mg/l (Pisces)
- EC50 Daphnia 1: > 100 mg/l (Invertebrata)
- Threshold limit algae 1: > 100 mg/l (Algae)

**White mineral oil (petroleum) (8042-47-5)**
- LC50 fish 1: > 100 mg/l (96 h; Oncorhynchus mykiss; Nominal concentration)
- Threshold limit algae 1: >= 100 mg/l (72 h; Pseudokirchneriella subcapitata; Growth rate)

#### 12.2. Persistence and degradability

**Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics (64742-47-8)**
- Persistence and degradability: Readily biodegradable in water. Adsorbs into the soil.

**White mineral oil (petroleum) (8042-47-5)**
- Persistence and degradability: Not readily biodegradable in water. No (test)data on mobility of the substance available.

#### 12.3. Bioaccumulative potential

**Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, < 2% aromatics (64742-47-8)**
- Log Pow: 6 - 8.2
- Bioaccumulative potential: High potential for bioaccumulation (Log Kow > 5).
**SECTION 13: Disposal considerations**

**13.1. Waste treatment methods**

Waste treatment methods: Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. This material and its container must be disposed of as hazardous waste. Incinerate the material under controlled conditions in an approved incinerator. Must be incinerated in a suitable incineration plant holding a permit delivered by the competent authorities. Do not allow into drains or water courses or dispose of where ground or surface waters may be affected. Dispose of contents/container to comply with local/regional/national/international regulations.

Additional information: Containers, or internal liners coming from a container, having contained this product are also considered as hazardous wastes. This material and its container must be disposed of in a safe manner. Empty containers should be taken for recycle, recovery or waste in accordance with local regulations. Handle unclean empty containers as full ones.

**SECTION 14: Transport information**

**Department of Transportation (DOT)**

Transport document description: UN1950 Aerosols (flammable, (each not exceeding 1 L capacity)), 2.1

UN-No.(DOT): UN1950

Proper Shipping Name (DOT): Aerosols

Transport hazard class(es) (DOT): 2.1 - Class 2.1 - Flammable gas 49 CFR 173.115

Hazard labels (DOT): 2.1 - Flammable gas

Marine pollutant: Yes (IMDG only)

DOT Packaging Non Bulk (49 CFR 173.xxx): None

DOT Packaging Bulk (49 CFR 173.xxx): None

DOT Special Provisions (49 CFR 172.102): N82

DOT Packaging Exceptions (49 CFR 173.xxx): 306

DOT Quantity Limitations Passenger aircraft/rail (49 CFR 173.27): 75 kg

DOT Quantity Limitations Cargo aircraft only (49 CFR 175.75): 150 kg

DOT Vessel Stowage Location: A

DOT Vessel Stowage Other: 25 - Shade from radiant heat 87 - Stow “separated from” Class 1 (explosives) except Division 14,126 - Segregation same as for Class 9, miscellaneous hazardous materials

**Additional information**

Other information: This product may be eligible to be shipped as a Limited Quantity or Consumer Commodity ORM-D utilizing the exception found at 49 CFR 173.306.

**ADR**

No additional information available

**Transport by sea**

UN-No. (IMDG): UN1950

Proper Shipping Name (IMDG): Aerosols

Class (IMDG): 2.1 - Flammable gas

Limited quantities (IMDG): LTD QTY

**Air transport**

UN-No.(IATA): UN1950
Bed Bug, Lice and Dust Mite Spray
Safety Data Sheet

Proper Shipping Name (IATA) : Aerosols, flammable
Class (IATA) : 2.1 - Gases : Flammable

SECTION 15: Regulatory information

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory

Chemical(s) subject to the reporting requirements of Section 313 or Title III of the Superfund Amendments and Reauthorization Act (SARA) of 1986 and 40 CFR Part 372.

California Proposition 65 - This product does not contain substances known to the state of California to cause cancer and/or reproductive toxicity.

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labelling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

Caution: Harmful if swallowed or absorbed through skin. Causes eye irritation. Avoid inhalation of spray mist and contact with skin, eyes or clothing. Thoroughly wash with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Avoid contamination of feed and foodstuffs.

SECTION 16: Other information

Training advice : Normal use of this product shall imply use in accordance with the instructions on the packaging.

NFPA health hazard : 1 - Exposure could cause irritation but only minor residual injury even if no treatment is given.
NFPA fire hazard : 2 - Must be moderately heated or exposed to relatively high temperature before ignition can occur.
NFPA reactivity : 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.

Prepared by: Technical Department

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product. No warranty is expressed or implied regarding the accuracy of this data or the results obtained from the use thereof. Our company assumes no responsibility for personal injury or property damage to the vendee, users or third parties caused by the material. Such vendees or users assume all risks associated with the use of this material.
