Proven PERFORMANCE

Our success is rooted in the belief that our customers are hard-working people all around the world. That's what drives us at Pyramex. We're constantly advancing our product line and exceeding the highest industry safety standards through research, design and, most importantly, your input. Pyramex is proud to be recognized as a company that is flexible and easy to do business with. We build our business on long term relationships at the customer level as well as the supplier (vendor) level. When you work with us, you will always have human interactions – no automated system. This is just part of who we are. We only succeed when you succeed. This work ethic has made us a market leader with distribution in more than 60 countries. Try on a Pyramex product and you will see and feel the difference. ***PERFORM AT YOUR PEAK.***

HOW TO ORDER

Pyramex products are available for sale through authorized distributors. When you call in, you'll always talk to a safety expert, ready to serve your business and meet your needs.

☎ phone: 800.736.8673 or fax: 877.797.2639

RETAIL SOLUTIONS

Carhartt has a long history of providing honest workers with honest products. They know their consumers don't just "do" their job. They live it. They don't just work. They outwork. They never stop moving. Carhartt is known for making durable and long-lasting products that provide the dependability hard workers require. **OUTWORK THEM ALL.**

Clamshell

Capture Clam

Polybag for Display Box

On the front lines, on patrol, or on the range, Venture Gear Tactical protects your eyes so you can accomplish your objective. All Venture Gear Tactical eyewear is built with the highest quality materials and pass Ballistic High Velocity Impact standards [MIL-PRF-32432], providing you with premium quality and protection. You can trust that your eyes are protected from even the harshest conditions when you choose Venture Gear Tactical. **ACCOMPLISH YOUR OBJECTIVE.**

All safety eyewear meets ANSI Z87.1+ standards (•) and provides 99% protection from harmful UV rays. All lenses are hard coated polycarbonate scratch-resistant. Some options meet Canadian CSA Z94.3 (•) – SEI third-party certification or Ballistic MIL-PRF-32432 High Velocity Impact (•) standards. For specific lens options visit our website or contact your sales representative.

All safety eyewear meets ANSI Z87.1+ standards (●) and provides 99% protection from harmful UV rays. All lenses are hard coated polycarbonate scratch-resistant. Some options meet European EN166 (●), Canadian CSA Z94.3 (●) – SEI third-party certification, or Ballistic MIL-PRF-32432 High Velocity Impact (●) standards. Hearing protection meets ANSI S3.19 (●) standards. Some options meet European CE EN-352:2002 (●) standards. For more information visit our website or contact your sales representative.

**You know the job.
We know the protection.**

Headgear Certifications

All Pyramex headgear products have been independently tested for various standards and certifications. Use the quick key (**ANSI** **CSA**) on the following pages to reference product models that meet these standards and certifications. Use the dots (••) next to each part number to reference which options meet the standards and certifications. Some exceptions may apply.

ANSI

- ANSI Z89.1 (hard hats)
- ANSI Z87.1 (brackets and face shields)
- ANSI Z87.1+ (polycarbonate face shields)

CSA

- Cert. Mod. - CAN/CSA Z94.1-15 —  third-party certification

UNDERSTANDING
ANSI/ISEA
Z89.1 & CSA
Z94.1 - 2015

American National Standard for Industrial Head Protection & Canadian Standards Association

Type 1 Top Impact

ANSI: Type I hard hat is designed to reduce the force of impact on top of the head. CSA: Type I hard hat provides impact and penetration protection for the crown only.

Class E Electrical

Class E provides the highest level of protection from high-voltage shock (up to 20,000 volts) and is especially well suited for electrical work.

Class G General

Class G is an all-purpose, general hard hat that provides good impact and penetration protection, but it offers limited voltage protection (up to 2,200 volts).

Class C Conductive

Class C does not offer electrical protection.

Ridgeline® Cap Style ANSI

ABS material – strong, yet ultra-light for seemingly weightless protection

Low profile design – offers a low center of gravity for better balance

Available with 4- and 6-point ratchet suspensions

Swinging hinge points allow you to find the most comfortable position on the back of your head

4-position harness points allows you to move the harness forward, backward, up or down – allowing for the most optimal position for ultimate comfort

Easy to grasp knob adjusts the suspension from 6½ to 8 head size

Rear padded suspension – provides additional level of comfort on the wearers' neck

Replaceable ratchet suspensions available

Replaceable sweat band - padded fabric and polyurethane foam

Vented pressure pad keeps the straps in place providing an additional level of comfort

Universal accessory slots fit cap mounted earmuffs and accessories

Ridgeline cap style hard hats pass reverse orientation, high temperature (HT) and low temperature (LT)

Ridgeline vented cap style hard hats are rated Class C and do not meet Class E or G safety standards for industrial head protection

Custom imprinting available

Intruder meets ANSI Z87.1+, CE EN166, CSA Z94.3 and AS/NZS 1337 standards. All lenses are hard coated polycarbonate scratch-resistant and provide 99% protection from harmful UV rays. Hi-vis work wear meets ANSI/ISEA 107-2015 Type R Class 2 standards. SL series hard hats meet ANSI Z89.1, CSA Z94.1 - 2015, Type 1, Class C, G, and E for industrial head protection standards. Disposable corded earplugs meet ANSI S3.19 and CE EN-352:2002 standards. Gloves meets European EN388:2003 standards. Contents are subject to change.

Ridgeline® Forestry Kits

- Ridgeline ratchet headgear – [HHABCMR]
- Ridgeline cap style hard hat with 4-point ratchet suspension – white [HP44110] or hi-vis orange [HP44141]
- Cap mounted earmuff – NRR 27dB [CM6010]
- Face shield – steel wire mesh [S1060]

Ridgeline Series		
FORKIT10		HP44110, HHABCMR, CM6010 and S1060
FORKIT41		HP44141, HHABCMR, CM6010 and S1060

Ridgeline headgear meets ANSI Z87.1 standards. Ridgeline hard hat meets ANSI Z89.1, Type 1, Class C, G, and E for industrial head protection standards. Cap mounted earmuff meets ANSI S3.19 standards. Face shield meets ANSI Z87.1 standards for wire mesh. Face shield offers secondary protection and must be worn with spectacles or goggles.

SL Series Forestry Kits

- SL series ratchet headgear – [HHABCMS]
- SL series cap style hard hat with 4-point ratchet suspension – white [HP14110] or hi-vis orange [HP14141]
- Cap mounted earmuff – NRR 27dB [CM6010]
- Face shield – steel wire mesh [S1060]

SL Series		
FORKIT10SL		HP14110, HHABCMS, CM6010 and S1060
FORKIT41SL		HP14141, HHABCMS, CM6010 and S1060

SL series headgear meets ANSI Z87.1 standards. SL series hard hats meet ANSI Z89.1, CSA Z94.1 - 2015, Type 1, Class C, G, and E for industrial head protection standards. Cap mounted earmuff meets ANSI S3.19 standards. Face shield meets ANSI Z87.1 standards for wire mesh. Face shield offers secondary protection and must be worn with spectacles or goggles.

UNDERSTANDING NIOSH

National Institute for Occupational Safety and Health

N95 Designation

N95 respirators are respiratory protective devices designed to achieve a close facial fit and efficient filtration of airborne particles. N95 designation means the respirator blocks at least 95% of very small particles but not resistant to oil.

Disposable Particulate Respirators

N95 – 95% efficient respiratory protection in non-oil areas

Ultrasonically welded straps eliminate the need for staples

Straps are latex free

Shell is durable and keeps structure under heavy humidity

Soft, smooth outer and inner layer is comfortable on the skin

Inner foam strip reduces the potential for eyewear fogging

Outer aluminum adjustable nosepiece holds shape for proper fit

Use Against:

NIOSH approved for protection against particulate aerosols free of oils. Pyramex recommends this respirator for use against particulates containing materials such as flour, iron ore, coal and minerals.

Do Not Use Against:

Vapors, paint spray, oil-based aerosols, asbestos and sand blasting

Any contaminant whose concentration is unknown, or immediately dangerous to life

Concentrations of dust and mists which exceed the maximum use of concentration or 10 times contaminant's permissible exposure limit established by OSHA

Part No.	Description	Size
RM10 PYRM10C*	N95 Particulate Respirator	One Size Fits Most

*Pyramex retail packaged product

Part No.	Description	Size
RM10V PYRM10VC*	N95 Particulate Respirator with One Way Valve for Easy Exhalation	One Size Fits Most

*Pyramex retail packaged product on page 43.

Disposable Respirators meet the NIOSH standard for N95 particulate respirators. For specific options visit our website or contact your sales representative.

Part No.	Description
HCW100	100 Individually Packaged Alcohol Free Hygienic Wipes

Note: HCW100 are safe and effective for cleaning respirators, hard hat suspensions and other personal protective equipment, but not to be used on disposable particulate respirators.

Eyewear Features

Eyewear Certifications

All Pyramex eyewear products have been independently tested for various standards and certifications. Use the quick key (**ANSI** **CE** **CSA** **AS** **BALLISTIC**) on the following pages to reference product models that meet these standards and certifications. Use the dots (●●●●●) next to each part number to reference which options meet the standards and certifications.

ANSI	• ANSI Z87.1+ High Impact
CE	• CE EN166
CSA	• Cert. Mod. - CAN/CSA Z94.3 -15 –  third-party certification
AS	• AS/NZS 1337
BALLISTIC	• MIL-PRF-32432 High Velocity Impact Standards

Lens Treatments

H2MAX Anti-fog Coating

The innovative technology behind the **H2MAX** creates a high performing, superior anti-fog coating that is durable enough to withstand repeated cleaning without losing adhesion. Not only does this premium treatment ensure maximum clarity in the most extreme temperature and humidity conditions, but it also adds a layer to the lens that is abrasion and chemical resistant. The **H2MAX** anti-fog coating is made from non-hazardous environmental components. Coating resists scratching from steel wool up to 100g weight. **H2MAX** passes ANSI Z87.1 standards, CE standards for N and K, and Canadian certification CAN/CSA Z94.3.

H2X Anti-fog Coating

H2X provides anti-fog, anti-scratch, and anti-static protection. Even after repeated cleanings, **H2X** will continue to be effective because, the coating is bonded to the lenses. The **H2X** anti-fog coating is made from non-hazardous environmental components. Coating is waterproof with excellent scratch resistance. **H2X** passes ANSI Z87.1 standards and Canadian certification CAN/CSA Z94.3.

Lens Colors and VLT

When light passes through a lens, some of it is absorbed and some of it is reflected back. The amount of light that passes through is known as the visible light transmission (VLT) and is represented by a percentage. Lens colors with a higher percentage of VLT will be lighter and allow more light to pass through, while lens colors with a lower percentage of VLT will be darker, blocking more light from reaching your eyes.

 Clear 91%	 Amber 89%	 Photochromic 84%	 Pink 82%	 Infinity Blue 71%	 1.5 IR Filter 66%
 Arc 64%	 Orange 61%	 Light Gray 52%	 I/O Mirror 51%	 Purple Haze 43%	 Vermilion 38%
 Coffee 27%	 Multi-color Mirror 27%	 Shooter's Amber 27%	 Sandstone Bronze 27%	 Bronze 23%	 Gray 23%
 Sun Block Bronze 20%	 Antique Mirror 18%	 Blue Mirror 18%	 Gold Mirror 18%	 Green Mirror 18%	 Silver Mirror 18%
 Mango 16%	 Sky Red Mirror 14%	 Ice Blue Mirror 13%	 3.0 IR Filter 11%	 Smoke Green Mirror 11%	 Forest Gray 10%
 Ice Orange Mirror 10%	 Smoke Green 10%	 Dark Gray 7%	 5.0 IR Filter 2%		

Lens Technology

Polycarbonate Lenses

All Pyramex safety eyewear utilize polycarbonate lenses. Polycarbonate lenses are up to 10 times more impact-resistant than plastic or glass lenses and provide 99% protection from the sun's harmful UV rays. They are lightweight and include a scratch-resistant coating to prevent surface scratches.

Photochromic Lenses

Photochromic lenses change from clear to dark, after exposed to direct UV light. Changes from dark to clear, after removed from UV light.

Polarized Lenses

Polarized lenses eliminate glare, increase visual clarity and enhances contrast all while reducing eye strain. We offer polarized options in forest green, sky red mirror, green mirror, blue mirror and gray.

Applications

Use our suggested lens color guide to help decide which lens is best for the task at hand.

Enhance Contrast

 Amber	 Pink	 Infinity Blue	 Orange	 Purple Haze	 Vermilion
 Shooter's Amber	 Sandstone Bronze				

Excessive Glare

 Light Gray	 I/O Mirror	 Gray	 Blue Mirror	 Gold Mirror	 Green Mirror
 Silver Mirror	 Sky Red Mirror	 Ice Blue Mirror	 Forest Gray	 Ice Orange Mirror	 Dark Gray
 Polarized Gray	 Polarized Blue Mirror	 Polarized Green Mirror	 Polarized Sky Red Mirror	 Polarized Forest Gray	

Indoor Use

 Clear	 Amber	 Pink	 Infinity Blue	 Orange	 I/O Mirror
 Purple Haze	 Mango				

Low Light

 Amber	 Pink	 Infinity Blue	 Orange	 Purple Haze	 Shooter's Amber
 Sun Block Bronze	 Mango				

Outdoor Use

 Light Gray	 I/O Mirror	 Coffee	 Multi-color Mirror	 Sandstone Bronze	 Gray
 Sun Block Bronze	 Blue Mirror	 Gold Mirror	 Green Mirror	 Silver Mirror	 Sky Red Mirror
 Ice Blue Mirror	 Smoke Green Mirror	 Forest Gray	 Ice Orange Mirror	 Smoke Green	 Dark Gray
 Polarized Gray	 Polarized Blue Mirror	 Polarized Green Mirror	 Polarized Sky Red Mirror	 Polarized Forest Gray	

Welding

 1.5 IR Filter	 Arc	 3.0 IR Filter	 5.0 IR Filter
---	---	---	---

Note: 1.5 IR is designed for peripheral personnel and visitors who are NOT exposed to direct IR radiation. Arc is great for use under the welding helmet – allowing welder to see work clearly without suffering "welder's flash burn" from surrounding welders.

UNDERSTANDING Sealed & Foam Padded Eyewear

Sealed and foam padded eyewear are often ideal options for dusty or windy work environments. Many of our sealed and foam padded eyewear products also come with features like sealed rubber gaskets, interchangeable temples, and goggle straps, which make them easily customizable.

Isotope™ ANSI CE CSA BALLISTIC

- Dielectric
- Interchangeable temples and neoprene strap
- Temples adjust to three different lengths
- Dual frame design features a rubber gasket
- Passes Ballistic MIL-PRF-32432 High Velocity Impact standards when worn with strap
- Passes D3: Droplet and Splash Test when worn with strap

UNDERSTANDING Half Frame Eyewear

Half frame glasses blend the breathability of a frameless design with the durability provided by a full frame. Many of our half frame options come with an adjustable nosepiece feature allowing them to function and fit much like regular glasses. They are ideal for any application where both durability and an unobstructed line of vision are equally important.

UNDERSTANDING Frameless Eyewear

Frameless eyewear perfectly couples simplicity and style allowing them to work in applications and environments where a full field of vision is ideal, if not essential. Because they are lightweight and provide the wearer with an unobstructed view, they are excellent choices for those who are required to wear eye protection for long periods of time.

All safety eyewear meets ANSI Z87.1+ standards (•) and provides 99% protection from harmful UV rays. All lenses are hard coated polycarbonate scratch-resistant unless otherwise noted. Some options meet European EN166 (•) or Canadian CSA Z94.3 (•) – SEI third-party certification. For specific lens options visit our website or contact your sales representative.

UNDERSTANDING Over The Spectacle Eyewear

Over the spectacle eyewear is intended for those who require additional protection over their prescription glasses. They are designed with channels built in to accommodate another pair of temples, meaning you never have to remove your prescription glasses to comfortably achieve the protection you need.

UNDERSTANDING Goggles

Goggles provide protection against a variety of different potential hazards, including things like chemical splash, flying particles, wind, sun glare, and dust. No matter what unique protection your application or environment requires, with features like thermo and anti-fog lenses, open and close ventilation systems, and removable face shields, we have goggles to meet your needs.

V2G-Plus® ANSI CE CSA AS BALLISTIC

- Includes a wide adjustable elastic strap with quick release system for secure fit
- TPU frame features excellent resistance to cold and heat
- Thermo Lens System provides excellent resistance to fog caused by temperature differences in your environment
- Special indirect ventilation system located at the top and bottom of frame allows airflow and heat release
- Multi-functional goggle with 180° vision protects against chemical splash, sun glare, dust, flying particles, and wind
- Outer polycarbonate lens protects against the environment while an inner acetate lens prevents fogging
- Inner lens is separated by a thin spacer of air and sealed together with foam
- Passes Ballistic MIL-PRF-32432 High Velocity Impact standards
- Passes D3: Droplet and Splash Test – provides protection from droplets and splashes

Part No.	Black Body with Strap		
GB6410SDT	●●●●	AF	Clear Dual Pane H2X
GB6420SDT	●●●●	AF	Gray Dual Pane H2X

ANSI Z87.1 CE EN166 CSA Z94.3 AS NSZ1337 BALLISTIC

All safety eyewear meets ANSI Z87.1+ standards (●) and provide 99% protection from harmful UV rays. All lenses are hard coated polycarbonate scratch-resistant unless otherwise noted. Some options meet European EN166 (●), Canadian CSA Z94.3 (●) – SEI third-party certification, Australian AS/NZS 1337 (●) or Ballistic MIL-PRF-32432 High Velocity Impact (●) standards. For specific lens options visit our website or contact your sales representative.

V2G-Plus Rx Insert

- Accommodates -3.0 to +3.0 prescription lenses
- Securely snaps into place above nosepiece
- Includes micro-fiber storage case
- Take insert to local optometrist for Rx lens installation

Part No.
RX6400

Capstone® Shield ANSI CE CSA

- Fully adjustable elastic band
- Fits over prescription glasses
- Lens is coated to prevent fogging
- GG504DTSHIELD goggle has a dual pane lens
- Soft vinyl goggle body conforms to facial contours
- Passes D3: Droplet and Splash Test – provides protection from droplets and splashes
- Removable vent caps allow the user to remove when more ventilation is required or leave in place for unsurpassed chemical splash resistance
- Goggle combined with removable shield provides full face protection
- Four ventilation holes provide airflow
- Ratchet shield allows user to open or close in three positions for adjustment
- Polycarbonate shield conforms to the face offering increased impact and dust protection

UNDERSTANDING
Welding Helmets

Auto-darkening

Auto-darkening helmets are designed for maximum efficiency— and maximum safety. Designed to darken instantaneously at the light of a welding torch and clear up when the torch is turned off. The variable shade is intended to eliminate the process of lifting and lowering the helmet in order to see. Because an inactive lens often rests at either shade 3 or 4, seeing and starting the arc while still staying protected is easy. Auto-darkening helmets run off of solar power and batteries.

Passive

Passive helmets are known for their reliability and maintainability, which have made them staples for many welders. Though they lack many of the bells and whistles of auto-darkening helmets, they often provide better optical clarity.

ANSI Z87.1 CE EN175 | EN379 | EN166 CSA Z94.3

Welding helmets meet ANSI Z87.1+ (●) and Canadian CSA Z94.3-07 (●) standards – SEI third-party certification. Some options meet European EN175:1997 for shells, EN379:2009-7 for filters, EN166:2001 for cover plates (●) standards. For specific lens options, visit our website or contact your sales representative.

LEADHEAD®

Auto-darkening Helmets ANSI CE CSA

Note: Auto-darkening helmets are suitable for all types of electro-weldings: covered electrodes, MIG/MAG,TIG/WIG, plasma welding, cutting and laser welding (only selected models with two shade ranges, i.e.5-8 and 9-13), except for gas welding.

UNDERSTANDING
ANSI S3.19 &
CE EN 352:2002

American National Standard for Hearing
Protection and Accessories

NRR United States Rating

Noise Reduction Rating (NRR) is an estimated unit of measurement used to determine the amount of sound in decibels (dB) that a hearing device is capable of blocking out when properly worn.

SNR European Rating

Single Number Rating (SNR) is an estimated unit of measurement used to determine the amount of sound in decibels (dB) that a hearing device is capable of blocking out when properly worn. SNR also rates hearing protection by the noise environments in three categories: high-frequency (H), mid-frequency (M), and low-frequency (L).

ANSI S3.19 CE EN352:02

Hearing protection meets ANSI S3.19 (●) standards. Some options meet European CE EN 352:2002 (●) standards. For more information visit our website or contact your sales representative.

UNDERSTANDING Metal Detectable Earplugs

Metal detectable earplugs are designed for those working in food manufacturing. Almost all food manufacturing facilities use some form of metal detection in order to test outgoing products, ensuring they are free from contaminants. The blue color is an important component of the earplug, too—it is a popular choice because it contrasts with most food color.

METAL DETECTABLE
earplugs can be easily
identified by this icon.

UNDERSTANDING
CSA Z96-15

CSA Standard for High-Visibility Safety Apparel

CLASS 2 Performance

Performance Class 2 provides moderate body coverage and superior visibility. To comply with CSA standard apparel has to fully cover the upper torso (front, back, sides and over the shoulders) with the reflective striping composed of retro-reflective or combined performance materials.

Level 2 Retro-reflective

Level 2 is the highest retro-reflective performance material and is visible under dark conditions from a great distance. Retro-reflective material also reflects light produced by the headlights of oncoming traffic back to the vehicle operator.

X-BACK configuration is mandatory in Canada, but can be used for ANSI apparel.

X-back is used to distinguish whether a worker is facing toward or facing away from a hazard.

Glove Certifications

Pyramex work gloves have been independently tested for various standards and certifications. Use the quick key (**ANSI** **CE**) on the following pages to reference product models that meet these standards and certifications. Use the dots (••) next to each part number to reference which options meet the standards and certifications.

ANSI	• ANSI/ISEA 105-2016
CE	• EN388:2003

UNDERSTANDING
ANSI/ISEA 105-2016
& CE EN388:2003

ANSI USA Standards

ANSI standard features cut ratings that range from A1 through A9. Cut ratings are based on the grams of weight needed to cut through the material. Our ANSI cut level glove options include A2 (500-999 grams to cut), A3 (1,000-1,499 grams to cut) and A4 (1,500-2,199 grams to cut).

ANSI CUT
LEVEL
A4

CE EN European Standards

CE EN388 standard features abrasion, cut, tear and puncture ratings. Abrasion ratings are based on the number of cycles required to abrade through the sample glove. Cut ratings are based on the number of cycles required to cut through the sample at a constant speed. Tear ratings are based on the amount of force required to tear the sample. Puncture ratings are based on the amount of force required to pierce the sample with a standard-sized point.

Cooling Products

We have expanded our cooling line to an array of options that include cooling towels, hard hat pads, bandanas and neck shades.

Heat exhaustion is a serious concern for the tireless worker. No matter how hot it gets, you can keep working and stay sharp with Pyramex high performance cooling products. The heat index, which takes both temperature and humidity into account, is a useful tool to determine when it is too hot for workers. In 2014, 2,630 workers suffered from heat illness and 18 died from heat stroke/related causes on the job. Know the signs of heat exhaustion and heat stroke before they strike. If workers are given the proper PPE, heat illnesses and deaths are preventable.

C160 Series (NON-RATED)
Cooling Towel

Evaporative advanced PVA material holds water without feeling heavy

Anti-microbial treated to help prevent mold build-up and unwanted odors

To activate, simply soak in cool water

Reusable – just reactivate

Machine washable

Part No.	Color	Size

Part No.	Color	Size
HPSHADE30	Lime	One size fits most

Ergonomics

We understand there's nothing routine about your job. That's why we've got you covered with back supports, wrist supports, knee supports, knee pads, and elbow sleeves. We don't want you just to work— we want you to work safely and comfortably during those long-hour shifts. It's Pyramex's mission to make your work more efficient and serve you down to the vital necessities.

UNDERSTANDING
ERGONOMICS

Back Support

Stabilizes the spine, supports the abdomen and lower back, and prompts proper lifting

Wrist Support

Helps immobilize the joint and provides heat and compression to the wrist, bones, and joints

Elbow Sleeve

Helps the blood circulate better and reduces recovery time from injury

Knee Sleeve

Helps protect the knee from future injury or risk of damage

Knee Pads

Helps protect injury from falls and provides padding for extended kneeling

BBS500 Series NON-RATED

High Performance Back Support

Elastic 9-inch body for extra firm support

Stretchable bias binding with zig-zag stitching

Adjustable suspenders with innovative buckle panel

Plastic support stays

Ventilated, durable elastic body with two hook and loop fastening compression straps

Washable and shrink resistant

Part No.	Sizes
BBS500	S, M, L, XL, 2XL, 3XL

BBS300 Series NON-RATED

General Use Back Support – Light Weight

Elastic 8-inch body for extra firm support

Stretchable bias binding with zig-zag stitching

Economical spandex elastic body

Breathable mesh on the lumbar pad position

Non-conductive polypropylene stays

Adjustable, detachable suspenders with wide hook and loop fabric

Washable and shrink resistant

Part No.	Sizes
BBS300	S, M, L, XL, 2XL, 3XL

BBS100 Series NON-RATED

General Use Back Support – Economy Weight

Constructed from lightweight, durable material

Plastic support stays

Features breakaway suspenders

2 overlap style adjustable panels

Contoured shape allows flexibility and complete freedom of movement

Washable and shrink resistant

Part No.	Sizes
BBS100	S, M, L, XL, 2XL, 3XL

BES500 Series NON-RATED

Ambidextrous Elbow Sleeve with Strap

Buckle with hook and loop closure and adjustable cinch strap

Neoprene four-way stretch fabric provides uniform support and warmth

Binding and pre-curve design with spandex mesh behind the elbow

Washable and shrink resistant

Part No.	Sizes
BES500	S, M, L, XL, 2XL

BKS500 Series NON-RATED

Ambidextrous Knee Sleeve with Open Patella and Straps

Neoprene four-way stretch fabric provides uniform support and warmth

Contoured design conforms to the leg's natural shape

Foam anterior pad

Straps are made from durable woven elastic for support and comfort

Two hook and loop closures

Washable and shrink resistant

Part No.	Sizes
BKS500	S, M, L, XL, 2XL

BWS500 Series NON-RATED

Wrist Wrap with Thumb Restrainer

Ambidextrous, neoprene four-way stretch fabric provides uniform support and warmth

Straps are made from durable woven elastic for support and comfort

Hook and loop closure

Washable and shrink resistant

Part No.	Sizes
BWS500	S, M, L, XL

BKP100 Series (NON-RATED)
Economy Light Duty Knee Pads

- Wide and long for wraparound comfort
- Durable 600D polyester fabric cover
- 15mm closed cell foam padding
- Injection plastic button/clip strap connectors provide easy adjustment and secure fit
- Washable and shrink resistant

Part No.	Size
BKP100	One size fits most

BKP200 Series (NON-RATED)
Hard Cap Knee Pads

- Smooth hard cap attached with nickel plated grommets easily slides over various surfaces
- Durable 600D polyester fabric
- 15mm EVA foam padding
- Anti-bacterial treatment
- Injection plastic button/clip strap connectors provide easy adjustment and secure fit
- Washable and shrink resistant

Part No.	Size
BKP200	One size fits most

BKP200NM Series (NON-RATED)
Non-Marring Rubber Knee Pads

- Rubber non-marring cap attached with nickel plated grommets avoid damage or marking to sensitive work areas
- Durable 600D polyester fabric
- 15mm EVA foam padding
- Anti-bacterial treatment
- Injection plastic button/clip strap connectors provide easy adjustment and secure fit
- Washable and shrink resistant

Part No.	Size
BKP200NM	One size fits most

Product Offerings

From our first offering of safety glasses, we have expanded into head protection, hearing protection, hi-vis work wear, welding products, ergonomic supports, N95 respirators, gloves and cooling products. As our product lines grow, so do we as a company.

Headgear 46 – 61

Adapters • Baseball Bump Caps • Face Shields • Forestry Kits • Headlamp • N95 Respirators • New Hire Kits • Reflective Hard Hat Stickers • Ridgeline® Bump Caps • Ridgeline Cap Style • Ridgeline Full Brim • Ridgeline Headgear • Ridgeline Hydro Dipped • SL Series Cap Style • SL Series Full Brim • SL Series Sleek Shell

Eyewear 62 – 115

Sealed • Foam Padded • Full Frame • Half Frame • Frameless • Over the Spectacles • Readers • Goggles • Cords • Cases • Lens Cleaning • Displays

Welding 116 – 123

Auto-darkening Helmets • IR Eyewear • IR Face Shields • Passive Goggles • Passive Helmet

Hearing 124 – 131

Banded Earplugs • Corded Earplugs • Earmuffs • Electronic Earmuffs • Metal Detectable Earplugs • Push-in Earplugs • Uncorded Earplugs

Hi-vis Work Wear 132 – 145

Canadian Vests • Canadian T-shirt • Class 2 Vests • Class 2 T-shirts • Class 3 Vests • Class 3 T-shirts • Class 3 Jackets • Non-rated T-shirts • Non-rated Vests • Knit Caps • Balaclavas

Gloves 146 – 151

Crinkle Latex • Micro-Foam Nitrile • (PU) Polyurethane • Sandy Nitrile • Synthetic Leather • Glove Clips

Cooling 152 – 155

Bandanas • Hard Hat Pad • Neck Shade • Skull Caps • Towels

Ergonomics 156 – 161

Back Support • Elbow Sleeve • Knee Pads • Knee Sleeve • Wrist Wrap

Industrial Solutions 44 – 161

BY OFFERING A FULL LINE OF PPE
Work gets tough. We believe that finding the perfect safety gear shouldn't be. Let us assist you in finding the right solution for your specific needs.

BY PROVIDING INNOVATIVE DESIGN
Safety is our top priority, which makes providing safety gear that fits at the forefront of innovation our number one goal. A long history of listening to the needs of our customers has allowed us to introduce products like the I-Force® with H2X anti-fog technology and the lightweight Ridgeline® hard hat made out of ABS material.

BY PUTTING CUSTOMERS FIRST
Without our customers, we couldn't do what we do, and we are always working to better your experience no matter if you are local or global. We not only offer product customization but also private label solutions for customers looking to promote their business. Additionally, when you call in, you speak directly to one of the many knowledgeable members of our Customer Service team, meaning you receive real solutions without the wait. Also enjoy same day shipping as well as a risk-free 90 day guarantee.

There's more to see at **PYRAMEXSAFETY.COM**
Pyramex Safety is excited to introduce our new website and customer account access portal. This service will help you *Perform At Your Peak*.

Retail Solutions 8 – 43

Eyewear • Earmuffs • Electronic Earmuffs • Combo Kits • Displays
PROGRAMS CUSTOMIZED FOR YOU
Our proven programs are customized, offering you flexible solutions that produce keystone margins while allowing for multiple turns on inventory. With our personalized customer service experience, you receive the tailored support you require to maximize sales.

BRANDS YOUR CUSTOMERS KNOW
Through working closely with major distributors, buy groups, and co-ops, we are able to offer you competitive pricing on some of the most well-known brands on the market, including Carhartt®, Ducks Unlimited®, Venture Gear® and Venture Gear Tactical®.

MERCHANDISING SOLUTIONS
Our branded displays allow you to maximize floor space. We also put your needs first by offering customized planograms and retail-ready packaging.

A construction worker with a beard and safety glasses stands in the foreground, wearing a red t-shirt and a black hard hat with a green label. He is looking directly at the camera. In the background, a large red bucket is suspended in the air, and a yellow crane arm is visible. The scene is set outdoors on a construction site with a clear blue sky and some trees in the distance. A rainbow-like lens flare is visible across the worker's chest.

Pyramex PROMISE

At Pyramex, our promise to our customers is to provide the best possible products, the best possible service, and most importantly, an attitude of making our customers' lives easier on a day-to-day basis. Our values challenge us toward a commitment to truth and to deliver what we promise.
