DDECAUTIONADY STATEMENTS HAZADDS TO HUMANS AND DOMESTIC ANIMALS CAUTION Harmful if absorbed through skin. Avoid contact with skin, eves or clothing. Was thoroughly after handling and before smoking or eating

DEDSONAL DROTECTIVE FOUNDMENT (DDE)

All mixers loaders applicators and other handlers must wear long-sleeve shirt and long pants shoes plus socks, chemical-resistant gloves made of any waterproof materia chemical-resistant anron for mixers/loaders persons cleaning equinment and person exposed to the concentrate and for handlers performing animal din applications. Applicator using LILV cold foggers or fog/mist generators in indoor spaces must wear. Coveralls over long-sleeved shirt and long pants, chemical resistant gloves, chemical resistant footwear plus socks and chemical-resistant headgear if overhead exposure

LISER SAFETY REQUIREMENTS

Follow manufacturer's instructions for cleaning/maintaining PPF. If no such instructions t washables exist use detergent and hot water. Keen and wash PPE separately from othe laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them

LISED SAFETY DECOMMENDATIONS

User should wash hands before eating drinking chewing gum using tobacco or using the toilet. User should remove clothing/PPF immediately if pesticide gets inside. Then was thoroughly and put on clean clothing. Users should remove PPF immediately after handling thi product. Wash the outside of gloves before removing. As soon as possible, wash thorough and change into clean clothing

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to aquatic organisms including fish and invertebrates protect the environment, do not allow pesticide to enter or run off into storm drains, drainag ditches autters or surface waters. Applying this product in calm weather when rain is no predicted for the next 24 hours will help to ensure that wind or rain does not blow or way pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems. This pesticide is highly toxic to bees expose to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are foraging the treatment area.

DIRECTIONS FOR LISE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Shake well before using.

ENTRY RESTRICTIONS

For surface spray use: Except when applying to dogs or livestock, do not enter or allow others to enter treated areas until sprays have dried

For space spray use: Do not enter or allow others to enter until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated.

APPLICATION RESTRICTIONS

Except when applying to dogs or livestock, do not apply this product in a way that will contact workers or other persons, either directly or through drift. Except when applying to dogs or

livestock, only protected handlers may be in the area during application. Do not breathe dust vapors or spray mist. Do not apply when food is present. Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prenared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prenared foods are served, such as diping rooms, but excluding areas where foods may be prepared or held. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use Exposed food should be covered or removed Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers storm drains water bodies or aquatic babitat can occur. Do not allow the product to enter any drain during or after application

Avoid contamination of feed and feedstuffs. Remove pets and birds and cover fish aquaria before space spraving or surface applications. Do not use on humans. Vacate room after treatment and ventilate before re-occupying. Do not allow children or nots to contact treated areas until surfaces are dry. Not for use on plants being grown for sale or other commercial use or for commercial seed production or for research purposes. For use on plants intended for aesthetic purposes or climactic modification and being grown in ornamental gardens or parks, or on golf courses or lawns and grounds

Do not apply in classrooms while in use. Do not apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly or infirm. Do not apply to institutions (including libraries, sports facilities, etc.) in the immediate area when occupants are present

Not for use in outdoor residential misting systems.

All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses: (1) Treatment to soil or vegetation around structures: (2) Applications to lawns turf and other vegetation: (3) Applications to building foundations up to a maximum height of 3 feet

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications only. Not for broadcast use on indoor residential surfaces. Do not water the treated area to the point of run-off. Do not make applications during rain. Use of a handheld cold or thermal fogger in commercial settings is prohibited.

For 4 hours following applications, do not allow any person to reenter treated areas. When used in dairy barns or facilities: Close milk bulk tanks lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking

INDOOR APPLICATION

Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed

Nonfood/feed areas are areas such as garbage rooms, layatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Vacate treated areas and ventilate before reoccupying. For maximum effectiveness, a combination of snot surface treatment and forming is recommended CUDEACE CODAVING. PERMADOC 20

To control cockroaches, waterbugs, palmetto bugs, scorpions, millipedes, centipedes, sowbugs, nillhuns ants silverfish firehrats sniders crickets clover mites cheese mites granary weevils rice weevils confused flour beetles rust red flour beetles drugstore beetles meal worms grain mites and cadelles. Direct the spray into hiding places, cracks and crevices, and behind shelves and drawers For silverfish spray hookcases. For ants, spray trails, nests and points of entry To control bedbuos: Spray mattresses lightly, particularly around tufts and seams. Take beds apart and spray in all joints. Treat baseboards, moldings and floors. Allow all treated articles to dry thoroughly hefore use

SDACE SDDAVING-

For ranid control of House Flies, Fruit Flies, Gnats, Mosquitoes, Skinner Flies, Wasps, Hornets Bees, Black Flies, Angoumois Grain Moths, Mediterranean Flour Moths, Indian Meal Moths and Tobacco Moths: Close doors and windows and shut off ventilating systems. Apply with a good machine adjusted to deliver a fine mist or fog. Direct spray at an unward angle, distributing it uniformly throughout the entire area at a rate of 1 ounce per 1000 cubic feet of space. Keep area closed for 2 hours. Ventilate before reoccupying

FOGGING: To kill exposed or accessible stages of the above named crawling insects using an Ultra-Low Volume (ULV) cold fogger or fog/mist generator, apply at a rate of 1 gallon to 20,000 to 40,000 cubic feet of space. Contact insects directly when possible. Keen area closed for 2 hours. Ventilate before reoccupying

ON LIVESTOCK: To protect cattle (beef and dairy), goats, sheep, hogs and horses from Horn Flies. Face Flies. House Flies. Mosquitoes and Gnats: Apply a light mist sufficient to wet the surface of the hair. For face flies, spray face and head, but do not spray into eyes.

To control stable flies, horse flies and deer flies: Apply at a rate of 2 ounces per adult animal. sufficient to wet the bair thoroughly

To control blood-sucking lice: Apply to the infested areas of the animal, using a stiff brush to get the spray to the base of the bair. Repeat every 3 weeks if required

To control poultry lice: Spray roosts, walls and nests or cages thoroughly. This should be followed by spraving over the birds with a fine mist.

ON DOGS: To control fleas, ticks, and lice: Start spraving at the tail, moving the dispenser rapidly and making sure that the animal's entire body is covered, including the legs and underbody. While spraving, fluff the hair so that the sprav will penetrate to the skin. Make sure sprav wets thoroughly, but do not saturate animal. Do not spray into eyes or face. Avoid contact with genitalia. Use protective gloves or mitts when applying product. NOTE: Do not use on puppies less than twelve (12) weeks old. Do not use on old, sick, debilitated, medicated, pregnant, or nursing animals,

DO NOT USE ON CATS OR KITTENS. May be toxic or potentially fatal if applied to or ingested by cats. Accidental application to cats and/or grooming a recently treated dog may result in tremors and/or uncoordinated muscle movements. If this occurs, immediate veterinary care should be provided Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. 0849 030818

OUTDOOR ADDI ICATION

TO CONTROL TICKS, INCLUDING TICKS WHICH MAY CAPPY LYME DISEASE (DEDIMETED TDEATMENT) - Usa

this product as a residual treatment to control Ticks including the Deer Tick (Ivodes dammini) Long Star Tick (Amblyomma americanum) Brown Dog Tick (Rhinicenhalus sanguineus) American Dog Tick (Dermacentor variabilis) and Western Black-legged Tick (Ixodes nacificus) For each area listed below, apply until surface is wet but not to the point of rupoff (approximately

1 gallon per 750-1 000 ft²)

Treat around windows and doors porches screens eaves natios garages under stairways and in crawl snaces where these nests may enter

Treat a band of vegetation and leaf litter 6 to 10 feet wide around and the outside of buildings to help control ticks occurring there

To help control ticks in outdoor activity areas, treat a band of vegetation and leaf litter 6 to 10 feet wide and adjacent to activity areas, especially where dense vegetation occurs

ADULT MOSQUITO CONTROL: Apply as a fine mist to thoroughly treat the entire area. For best results treat when the wind velocity does not exceed 5 miles per hour, but do not apply when wind speeds exceed 10 miles per hour. Treat shrubbery or vegetation where mosquitoes may rest. Apply at a rate of 2.5 pints per acre (0.9 ounce per 1000 sq. ft.) Using truck mounted conventional misting (such as ULV) equipment traveling at 5 mph to treat a 300 foot swath calibrate equipment to deliver 0.95 gallons per minute. Under no conditions should open water be treated with this product. Not to be used within 100 feet (30 meters) of lakes and streams.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: Store in a dry place no lower in temperature than 50°F or higher than

1200F

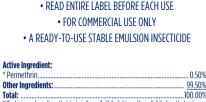

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the pearest EPA Regional Office for guidance

Container Handling: Nonrefillable container. Do not reuse or refill container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times

Buver assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.
