

COVID-19 and latest Share News, February 22nd, 2021

Dear Share Customer,

2020 was indeed a very challenging year for all of us. Even with industry-wide shortages of Disinfectants, Hand Sanitizers and PPE, Share Corporation was able to keep up with the demands for these important products throughout the entire year. Share experienced very few delays and backorders of our stocked products. We were proud with the fact that we make our own wipes, disinfectants, and hand sanitizers and were able to help keep our customers safe in the fight against COVID-19.

Important Notes to Consider:

- **Share has all COVID-19 Disinfecting Wipes, Disinfectants, and Hand Sanitizers in stock and ready to ship. Whether it's a small order or extremely large one- we have all the products ready to ship. Orders are shipped out within 24 hours of receipt of the order! For questions on your order, please contact your local Share Corporation Sales Representative.**

Regards,
